Is Redress a Scam?

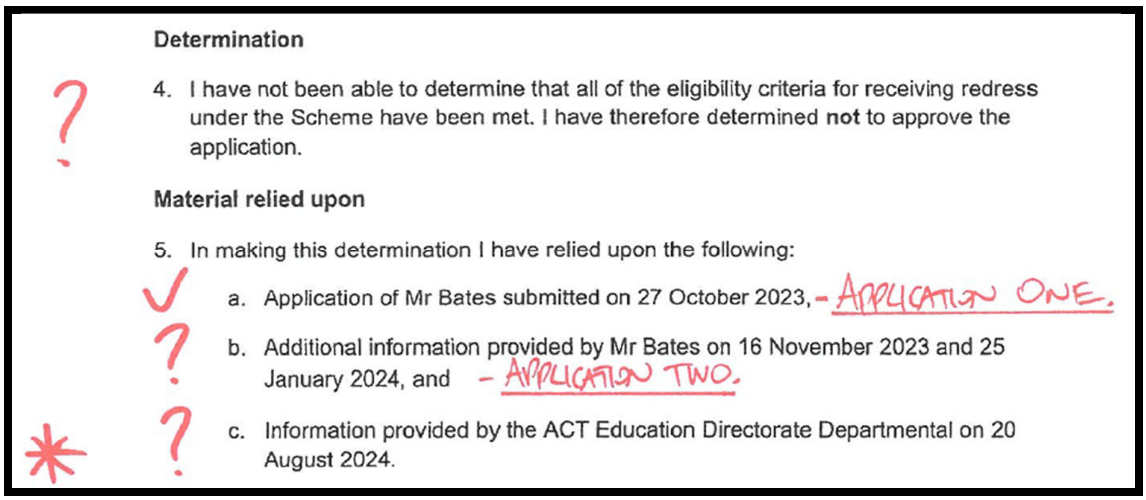

These are My Notes, for anyone that is interested…

The notes are copy and pasted from the Second Outcome Letter.

To date I have Not received my Redress compensation.

I believe the Teacher in question was married to an employee of the ACT Education Directorate Departmental. See - 5 (c)
The dates of the Teaches employment have been Falsified on Purpose.
The Directorate claims he did not work at the High School in 1985. **This is Untrue.**

COPY AND PASTE BELOW:

Determination

4. I have not been able to determine that all of the eligibility criteria for receiving redress under the Scheme have been met. I have therefore determined **not** to approve the application.

Material relied upon

5. In making this determination I have relied upon the following:

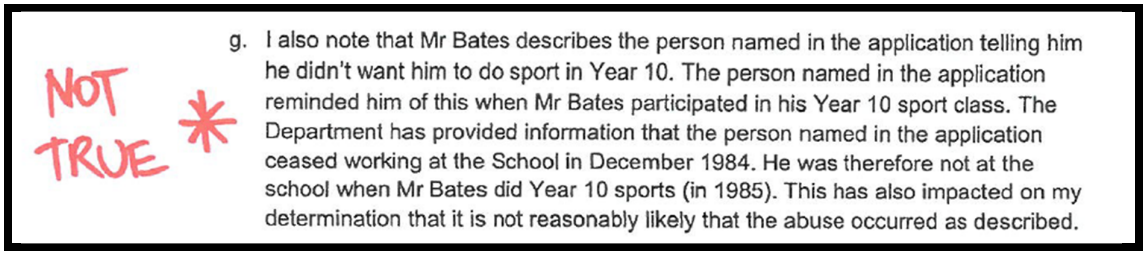

a. Application of Mr Bates submitted on 27 October 2023, - APPLICATION ONE.

b. Additional information provided by Mr Bates on 16 November 2023 and 25 January 2024, and - APPLICATION TWO.

c. Information provided by the ACT Education Directorate Departmental on 20 August 2024.

All of the information below is incorrect information…

COPY AND PASTE BELOW:

g. I also note that Mr Bates describes the person named in the application telling him he didn't want him to do sport in Year 10. The person named in the application reminded him of this when Mr Bates participated in his Year 10 sport class. The Department has provided information that the person named in the application ceased working at the School in December 1984. He was therefore not at the school when Mr Bates did Year 10 sports (in 1985). This has also impacted on my determination that it is not reasonably likely that the abuse occurred as described.

NOT TRUE

- The year 10 class was in 1986.
- Incidents occurred in 1984 and 1985.
- The teacher was teaching at the School in 1985.
- **The teacher DID NOT finish teaching in 1984.**

It appears Redress Staff are illiterate. I understand some are taking learn to read classes?

I am not being UNTRUTHFUL.

I demand my money through the ‘Redress Burden of Proof’ standard. Google it…

I would like my money promised to me by the Redress Scheme as soon as possible.

Good Luck with your Redress Applications.
